Dear Dr. Khan:

Re: CPSO & Dr. Akbar Nauman Khan

I am writing to inform you that the Inquiries, Complaints and Reports Committee of the College of Physicians and Surgeons of Ontario will consider whether to suspend or to impose restrictions on your certificate of registration to practise medicine in Ontario. The Committee's decision will be based on a consideration of whether your conduct exposes or is likely to expose your patients to harm or injury.

An order imposing restrictions or a suspension made by the Committee is called an "interim order". It is authorized under section 25.4 of the Health Professions Procedural Code which is Schedule 2 of the *Regulated Health Professions Act, 1991* ("the Code") and is made by the Inquiries, Complaints and Reports Committee. A copy of section 25.4 of the Code is enclosed for your reference.

The Committee's decision will be based on the information enclosed and on any written submissions you choose to make. Please review the information carefully.

Under section 25.4 of the Code, you are entitled to at least fourteen days in which to make written submissions. The Committee intends to consider this matter after the expiry of the 14 day period during which you may provide the Committee with written submissions if you so choose. The Committee will decide whether to make an interim order affecting your certificate of registration at that time. If for any reason that is not enough time to respond, please indicate how much more time you require and the reason an extension of time is required.

Please address any written submissions you care to make to Ms. Amy Block of the College's legal office and ensure that she receives them by August 31, 2017, so that your submission can be distributed to the members of the Inquiries, Complaints and Reports Committee.

You are, of course, free to make any submissions you wish. It would help the Committee however if in your submissions, you confirm the accuracy and identify any inaccuracies in the enclosed information and comment on whether your conduct exposes, or is likely to expose, your patients to harm or injury.

Yours truly,
