To Whom It May Concern;

Through this whole ordeal that I've gone through, I've lost lots of sleep and weight leaving me as a hollow man. After SEF Chemo it wasn't long where I gained self-respect, self-worth and health. Now I could move with my life. We are preparing to build a new home as well as spend more time in our home in Nova Scotia.

Now this new turn of events where Dr. Khan is saving my life, my future looks great. Now somebody wants to take that away from me and my family. We are back to sleepless nights, worrying days and have come so close to beating this.

The medical records will show my cancer markers at 8855 in November when I started SEF Chemo. It has dropped down to around 30 now. These records are available at Dr. Khans' address and my family Dr. where the blood was taken from our local hospital and a copy was sent to Dr. Khan and family Dr. Higgins in Southampton. The numbers are real and not made up.

I've been going for quite some time and seen changes in patients that are going to Dr. Khan office for the better, who also had no hope. I'm offering myself, To Whom It May Concern, as an open book to investigate my case fully. I will supply anything you need to show that this is not a scam. My payment is to Berkley Institute in California and I have all records to show that. If any investigation needs to be done, should be what works and doesn't work. I had the other Chemo and Operation that didn't work so the cancer spread more and The Medicare Cancer Centre have turned things around to I am alive and well: who do you think should be investigated?

Sometimes I might need an infusion for Vit. D saline or Potassium and Dr. Khan does that which is supplied by Dr. Khan. That's the only thing I'm billed for and that's only if I need it. I have all records of payments also for that.

How can assisted suicide be ok to take someone's life at their request, but on my request to stay alive someone wants to take that away. I don't think it's morally right or mentally ok to make that decision on my behalf! Please let me live and use me as an example of living life.

Remember, the idea of Cancer research and funding is to save lives. As Drs. You have an obligation to do so.

I'm available upon request for any concerns or questions you have. Please let me live peacefully and in Dr. Khans' care.

Take My Testimony Not My Life

Dear Mr. Peters:

**Re: CPSO & Dr. Akbar Khan**

Your letter of January 7, 2018 has been directed to me for reply.

In your letter of January 7, 2018, you mention providing a letter to the College last year along with a letter from your wife and other friends. You have indicated that you have heard nothing from the College.

I have reviewed the College's records and enclose correspondence the College received bearing your name dated September 9, 2017. The College received this letter from Dr. Khan's counsel, Ms. Jennifer McKendry, on September 12, 2017. We did not receive it directly from you and it was not clear that you were expecting a reply. I note you also spoke with the College Investigator, Lisa Mueller, on September 11, 2017. We have not received any further letters or emails from you.

As you may be aware, allegations regarding Dr. Khan have been referred to the Discipline Committee. Ultimately, the Discipline Committee will determine whether the allegations regarding Dr. Khan have been proven, and if so, what the appropriate penalty should be. I can advise that your letter and communication with the College Investigator are included as part of this ongoing process, and as such, have been provided to Dr. Khan's counsel. Your letter of January 7, 2018 will also be provided to Dr. Khan's counsel, along with this response.

The discipline hearing will involve hearing from witness. The College will call witnesses to support its case, following which Dr. Khan will have an opportunity to call witnesses he believes will assist his defence.

I hope this provides some clarification as to the discipline process. If you have any additional questions about the discipline process, please do not hesitate to contact Pamela Greenberg at (416) 967-2600 ext. 629.
